

Smart-O Drain Plug

Pia Duxbury Tuesday, 16 February 2016 12:09

SMART-O® is a safer and more effective oil drain plug (sump plug), engineered to reduce the risk of damage to the oil pan, engine damage and water pollution. The plug utilizes an innovative, patented sealing and locking mechanism which enables the plug to resist vibration and seals more effectively. Car owners and auto service professionals are both familiar with mishaps where oil drain plugs (sump plugs) are over-torqued, under-tightened or insufficiently tightened.

- Safe-sealing function: O-ring self-expands upon contact with engine oil to seal the pan from inside the thread.
- Anti-vibration function: O-ring counteracts self-loosening caused by engine vibration.
- Engine + oil pan protection: Reduces risk of sudden oil loss which could lead to engine damage. Protects oil pan threads by eliminating need or excessive torque.

New Products Smart-O Drain Plug

For a Smarter and Safer Oil Change **SMART-O**
THE INTELLIGENT DRAIN PLUG

Protect your Engine and Oil Pan!

SMART-O is more than a sump plug. It's a safety system for the engine, the customer, your business and the environment. Through a safe and locking anti-vibration mechanism it offers a superior improvement in safety, performance, product range and reliability.

Anti-loosen!
Reduces counter-torque vibration 10% when torqued over specified limits for oil pan thread.

Anti-vibration!
Locks in place to resist vibration stresses. Reduces risk of plug falling out or not tightening properly.

Environmentally Friendly!
The only plug where the O-ring is located on the inside of the plug. Protects oil pan and seals locking mechanism.

Smart plug O-ring feature identification!
They're made using precision-machined O-rings with very tight tolerances for safe locking up and backdown!

Unlimited torque - faster installation!
The specially designed O-ring allows for single, uniform torque settings for all vehicles.

ECO protection!
Signs of a clean water spillage? 1 litre of water pollutes 1 million litres of water. SMART-O offers maximum protection against sudden loss of engine oil. For back locking to 30% of its own O-ring torque rating.
